813-875-8032 (South Tampa)  
or 813-428-7030 (Lutz).

*\*Coupon may not be combined with sneak peak discount.*

*This service is for patients of The Woman's Group only. 4D sonography is recommended between the 28th to 32nd week of pregnancy, when baby's features are fully developed and can be observed unconstrained and without compression. If you would like to use this service prior to the recommended period, please discuss with your physician. You will be required to complete the 2-D sonogram as part of your normal pregnancy care at about at 20 weeks. In the event that your baby is not in a suitable position for our 4D keepsake video at the time of your appointment, you may reschedule at no charge (one time only).*
